School Accountability Report Card  
Reported Using Data from the 2019-2020 School Year  
Published During 2020-2021**

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF webpage at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### **DataQuest**

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### **California School Dashboard**

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

### School Description and Mission Statement (School Year 2020-2021)

California Connections Academy @ Central (CalCA @ Central) was first authorized in May of 2006 and was granted a second renewal charter in February of 2016 by Alpaugh Unified School District (AUSD). CalCA @ Central began serving students on September 5, 2006. CalCA @ Central serves students in Tulare, Kings, Kern, Inyo, and Fresno counties.

The mission of CalCA @ Central is to leverage 21st century education resources on behalf of students who need a more personalized approach to learning to maximize these students' potential and meet the highest performance standards. This mission is accomplished through a uniquely individualized learning program that combines the best in virtual education with real connections among students, family, teachers, and the community to promote academic and emotional success for every learner. Every CalCA @ Central student has a Personalized Learning Plan and an entire team of experts committed to the student's successful fulfillment of that plan. CalCA @ Central is a high-quality, high-tech, high-interaction virtual "school without walls" that brings out the best in every student through Personalized Performance Learning.

CalCA @ Central is tailor-made for a diverse array of students who would benefit from a quality alternative to the traditional brick-and-mortar classroom. These include students whose families seek direct involvement in their education; students who are homebound due to illness or disability; exceptional students who are far ahead of or far behind their peers in school; young people pursuing artistic or athletic careers that require a flexible school schedule; students in group homes or institutions; and students at risk of academic failure who may particularly benefit from intensive, personalized instruction.

CalCA @ Central represents an outstanding educational choice for families in Tulare County and contiguous counties. Students will benefit from instruction that is individualized, personalized, and flexible. The ultimate focus of this “high-tech, high-interaction” instructional model is student achievement. The CalCA @ Central Board contracts with Connections Education, DBA Pearson Online and Blended Learning, to provide the online school platform, the curriculum and other services. Parents pay no tuition for their students to attend California Connections Academy @ Central. Students are considered to be enrolled in a full time public school. CalCA @ Central provides textbooks and other instructional materials and equipment. Non-consumable materials and all equipment must be returned if the student is no longer enrolled. Students are expected to take all state- mandated standardized tests in person at proctored locations designated by the school.

## A. Conditions of Learning

### State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

### Teacher Credentials

## School Facility Conditions and Planned Improvements

California Connections Academy @ Central is a virtual school site and so does not have a physical facility, but it does share office space (e.g. for housing school records) with other California Connections Academy schools. These shared administrative offices are located in office space within relatively new commercial business parks in Ripon and San Juan Capistrano, CA. California Connections Academy @ Central also utilizes a PO box as its permanent mailing address.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Mathematics (grades 3-8 and 11)	19	N/A	15	N/A	39	N/A

Note: Cells with N/A values do not require data.

Note: The 2019-2020 data are not available. Due to the COVID-19 pandemic, Executive Order N-30-20 was issued which waived the requirement for statewide testing for the 2019-2020 school year.

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

**State Priority: Parental Involvement**

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

## Opportunities for Parental Involvement (School Year 2020-2021)

Formal parent/teacher communication is required a minimum of once every two weeks for students in grades K-6 and monthly for students in grades 7-12. Parents proactively identify and work with teachers to address student challenges. Feedback from parents regarding the school is gathered annually using a parent survey conducted by an independent third party firm. Parents also participate through regular opportunities to plan and attend field trips and other school events throughout the year. There is a parent group similar to a PTA called "Club Orange" that all parents are welcome to participate in free of charge. There is a parent representative position available to the Board of Directors, the governing body for the charter school. There are also parent representatives on the School Advisory Committee, which advises the board and administration on topics such as Title programs and the LCAP. All parents and Learning Coaches are provided access, via Connexus®, the Educational Management System, to an online orientation and are encouraged to complete it prior to enrollment. The school has several Family Relationship Specialists who proactively reach out to support new parents, and also respond to assist parents who are having difficulties of any kind in fulfilling their crucial role in their student's education. Parents and Learning Coaches are encouraged and reminded that Technical Support can be contacted by phone or via a link in Connexus for assistance with technical issues, complaints and concerns. Monitored Message Boards provide opportunities for parents to communicate about a variety of topics with each other, with teachers, and with other stakeholders. A link on the parents' homepage in Connexus called "Feedback" enables parents to immediately and easily submit comments, complaints, questions, and concerns, and the "rate your school" link allows parents to rate their overall experience at the school on a daily basis. These communications are tracked daily. Parents may also rate each lesson their student is assigned using the StarTrack system. Both the "rate your school" and the StarTrack systems use a rating scale of 1-5 (1 being poor, 5 being excellent) and also allow users to submit written comments. Students and their families are offered the opportunity to participate in a variety of school-sponsored activities, including official field trips, schoolwide social events, a private Facebook page for communication and planning, numerous clubs, and an online yearbook, and an extensive monthly school newsletter.

### State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates; and
- High school graduation rates.

### Dropout Rate and Graduation Rate (Four-Year Cohort Rate)

Indicator	School 2016-17	School 2017-18	School 2018-19	District 2016-17	District 2017-18	District 2018-19	State 2016-17	State 2017-18	State 2018-19

Graduation Rate	51.8	47.4	56.7	58.2	56.1	65.5	82.7	83	84.5

### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

### Suspensions and Expulsions

(data collected between July through June, each full school year respectively)

Rate	School 2017-18	School 2018-19	District 2017-18	District 2018-19	State 2017-18	State 2018-19
Suspensions	0.0	0.0	2.7	1.6	3.5	3.5
Expulsions	0.0	0.0	0.0	0.1	0.1	0.1

## Suspensions and Expulsions for School Year 2019-2020 Only

(data collected between July through February, partial school year due to the COVID-19 pandemic)

Rate	School 2019-20	District 2019-20	State 2019-20
Suspensions	0		
Expulsions	0		

Note: The 2019-2020 suspensions and expulsions rate data are not comparable to prior year data because the 2019-2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-2020 school year compared to prior years.

## School Safety Plan (School Year 2020-2021)

Because our charter school is a virtual school, school safety issues differ from a traditional school. Students do not work from a school site but some teachers and administrators, as well as most all of the support staff, do work from an office location. For students, school safety issues typically include, but are not limited to, Internet safety as well as policies on bullying and harassment. Connexus, the school's Education Management System, provides a closed communication system, which helps ensure online safety for students. For staff members, common school safety issues addressed with training include Internet safety, students in distress, student, parent or staff bullying and harassment, and other topics. Emergency plans and work place safety policies are also provided for school staff members who work in a school office. We do host in person events including field trips, festivals, state testing and graduation ceremonies. We do have a comprehensive safety plan that was board approved on 4-28-20. The plan includes all elements required by Ed Code, including but not limited to: child abuse reporting, disaster and criminal incident procedures, and, discipline and due process for students. The school also has a safety committee which meets at regular intervals. We also offer staff CPR training and active shooter training. Additional information about school safety is available upon request.

## Professional Development (Most Recent Three Years)

Measure	2018-19	2019-20	2020-21
Number of school days dedicated to Staff Development and Continuous Improvement			

All teachers have approximately 20 days each school year for professional development and training. In addition, Professional Learning Communities actively meet throughout the school year during time set aside for this important professional development activity which supports student learning through data analysis and professional collaboration.

Training/Professional Learning Elements - The following training and professional learning programs are provided to Connections Academy teachers:

### 1. Teacher Orientation Courses

Teacher Orientation Course: Foundations of Instruction - All new teachers complete a self-guided, Connections Education-developed teacher orientation course. This course is delivered through Connexus and contains lessons, interactive practice activities, assessments, and online tutorials. This course covers “the basics” teachers need to know to effectively do their job, including guidance on how to establish a relationship with students, personalize instruction, effectively grade and provide meaningful feedback, monitor progress, and use our multitiered instructional model. Upon successful completion of this course and its assessments, teachers are ready to begin. Teachers must complete this course within their first 30 days of employment with an overall score of 80% or higher.

Returning Staff Updates - This course is designed for teachers who are returning to Connections Academy and have already completed the Teacher Orientation Course. The returning staff update includes information about procedures, Connexus features, and instructional programs that are new or updated for the current school year. A link to the Teacher Orientation Course is included in the returning staff update for reference. To ensure they are aware of changes from the prior school year, returning teachers must complete an assessment with an overall score of 80% or higher during the first 30 days of the school year.

### 2. Connections Academy Professional Learning Series

Research on effective professional development tells us that professional development should be intensive, ongoing, and connected to practice. We are not effective when we provide stand-alone professional development workshops. Teachers need to try out new ideas and strategies with their students and to

reflect on the results of these strategies. Intensive professional development, especially when it includes application of knowledge to planning and instruction, has a greater chance of influencing teaching practices, and in turn, leading to gains in student learning. Connections Academy provides teachers with ongoing

professional development activities throughout the year. Presenters with various backgrounds and areas of content expertise conduct live tutorial sessions on a rotating basis throughout the school year.

Connections Academy provides a systematic approach to professional learning for all teachers. Topics for professional learning sessions support our core standards for facilitating student learning, align to the school year cycle, and are driven by our belief that all students can and must learn. Each series is: Intensive – Participants will identify the purpose of educational practices, examine how they can be implemented in the virtual or blended environment, and collaboratively discuss strategies that can be implemented with students.

Ongoing – New instructional strategies and the latest learning research will be connected to topics presented and discussed in prior sessions to demonstrate how specific educational practices form the “big picture” of effect.

Connected to practice – Following each session, participants will apply what they’ve learned to their professional practice. They will integrate precise, targeted strategies into their planning and instruction, and reflect on the outcomes through the Teacher ePortfolio Data View.

### 3. University Online Instruction Courses

Connections Education has established relationships with faculty members at American Public University to provide teachers with courses specifically designed to focus on online instructional practices. Connections Education offers up to \$5,250 per year per teacher per teacher in tuition reimbursement to support continuing education. Some restrictions apply including enrollment in an accredited program or degree path as well as successful completion of the course(s).

#### 4. Connections Academy Leadership Academy

Connections Academy cultivates internal leadership candidates through a series of meetings that focus on administrative, policy, and operational issues. Candidates who have an interest in future leadership opportunities are selected through an application process. This forum promotes critical thinking in the areas of educational research, administrative practice, and supervisory proficiency as they relate to virtual school leadership. Participants will also be expected to complete a year-long action research project at their school and report on the results at the final meeting of the Leadership Academy.

#### 5. Teacher Central

Teacher Central is a website that is easy to navigate and serves as a one-stop shop for teachers and staff to find guidance on instructional practices, professional learning, and training resources. Each section contains links to resources to support teacher effectiveness, best practices, and tools designed to personalize the learning experience for students. The Teacher Central website supports school-based staff with a variety of recorded tutorials, presentations, guides, and links to resources in 10 key categories:

- Connexus Tools
- Curriculum and Course Support
- Data & Reports
- Enrollment, Placement, and Withdrawal
- Family Engagement
- Multitiered Instructional Support
- Professional Learning and Collaboration
- School Year Cycle
- Teacher Protocols, Policies, and Best Practice
- Live Lesson Sessions

#### Training and Professional Learning Delivery Models

Connections Academy uses several modes to deliver training and professional learning:

**In-Person Training:** Recognizing the tenets of effective professional development established by the National Staff Development Council (NSDC), interpersonal connections increase the impact of training for adult learners. Connections Academy's Academic Training and Support Services team facilitates face-to-face training by school request. This can help establish rapport and promote collegial learning communities that are continued throughout the year via remote interactions. "Train-the-Trainer": Each school selects at least one teacher to serve as a Training Representative to work with members of the Academic Training and Support Services team throughout the year. Training Representatives stay current on and then train teachers at their school on school-year cycle tasks, Connexus updates, and changes to processes. To assist them in this role, Training Representatives are given access to training materials they can customize, such as PowerPoint trainings, one-page guides, and activities to reinforce learning.

**Synchronous Web-Based Training:** In line with our commitment to use cutting-edge technology to promote learning for students, Connections Academy also implements this model for teacher training and professional learning. Real-time trainings and professional learning sessions conducted virtually, along with recorded

trainings are offered throughout the year on a variety of school-specific and system-wide initiatives. Schools can request additional, school-specific sessions at any time.

Connections uses Adobe Connect (LiveLesson sessions) to hold online meetings with teachers to demonstrate new Connexus functionality, present and model best practices in online teaching, and showcase available resources and tools for online teaching and learning. The technology also allows sessions to be recorded so that teachers can play them back at any time, providing teachers continuous access to pertinent information.

#### Teacher Support During Implementation

Connections Academy teachers are all assigned supervisors. The supervisors are tasked with monitoring and supporting the teachers during their implementation of the professional development activities. They will meet as often as twice a month to ensure implementation is on track.
