2023-2024 School Accountability Report Card

(Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement

California Online Public Schools Monterey Bay, formerly California Connections Academy Monterey Bay, was authorized on February 26, 2019, by Scotts Valley Unified School District (SVUSD). Effective July 1, 2024, the school name change was approved. California Online Public Schools (CalOPS) began serving students on September 3, 2019, and serves students in Monterey, San Benito, San Mateo, Santa Clara, and Santa Cruz Counties.

The mission of California Online Public Schools is to foster compassionate global citizens using empathy, the highest educational standards, and cutting-edge resources to maximize student potential. This mission will be accomplished through a

2024-25 School Description and Mission Statement

uniquely individualized learning program that combines the best in virtual education with real connections among students, family, teachers, and the community to promote academic and emotional success for every learner. Every student will have a personalized learning plan and an entire team of experts committed to the student's successful fulfillment of that plan. California Online Public Schools is a high-quality, high-tech, high-interaction virtual "school without walls" that brings out the best in every student through Personalized Performance Learning.

California Online Public Schools Monterey Bay is tailor-made for a diverse array of students who would benefit from a quality alternative to the traditional brick-and-mortar classroom. These include students whose families seek direct involvement in their education; students who are homebound due to illness or disability; exceptional students who are far ahead of or far behind their peers in school; young people pursuing artistic or athletic careers that require a flexible school schedule; students in group homes or institutions; and students at risk of academic failure who may particularly benefit from intensive, personalized instruction.

California Online Public Schools Monterey Bay represents an outstanding educational choice for families in Santa Cruz County and contiguous counties. Students will benefit from instruction that is individualized, personalized, and flexible. The ultimate focus of this "high-tech, high-interaction" instructional model is student achievement. The California Online Public Schools Board approves the online school platform, curriculum, and other services necessary for student success. Parents pay no tuition for their students to attend California Online Public Schools. Students are considered to be enrolled in a full-time public school. California Online Public Schools Monterey Bay provides access to ebooks and other instructional materials and equipment. Students are expected to take all state-mandated standardized tests.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

California Connections Academy Monterey Bay is a virtual school site and so does not have a physical facility, but it does share office space (e.g. for housing school records) with other California Connections Academy schools. These shared administrative offices are located in office space within relatively new commercial business parks in Ripon and San Juan Capistrano, CA.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Parents and other caretakers have the opportunity to be a part of their child's learning journey and play a critical role in student success. As a "Caretaker", parents help their children stay on track, assist with academic monitoring, support in-person socialization opportunities, and more. Teachers, along with parents, proactively identify and work to address student challenges as well as celebrate student successes. Parents monitor student attendance and lesson completion daily. To enhance student learning, parents have the opportunity to interact with teachers during normal school hours which in turn builds positive parent/teacher relationships. Middle school and high school parents are actively involved in progress monitoring and other relevant meetings as needed; these meetings are held at a frequency relevant to the needs of the student. Elementary parents are required to speak with homeroom teachers at least three times per school year and many typically do so more often.

Students and their parents are offered the opportunity to participate in a variety of school-sponsored activities, including official field trips, schoolwide social events, and college tours. Parents may be involved in supporting their children's philanthropic efforts such as those involved with the school's chapters of National Junior Honor Society and National Honor Society. Parents take part in the School Advisory Committee meetings, which advise the board and administration on topics such as Title programs and the LCAP. They also have the opportunity to take part in the Caretaker and Administration Collaboration Meeting that allows for a less formal conversation where parents can ask more in depth questions and further our discussion surrounding our school and school goals. Parents also have the opportunity to participate in the school's ELAC meetings which help guide our ELD program. A popular private Facebook page provides opportunities for parents to interact and communicate about a variety of topics.

The school's counseling team offers parent workshops that draw on building students' social-emotional learning skills: self-awareness, self-regulation, social awareness, responsible decision making, and relationship skills. Sessions take place throughout the school year and consist of information, engagement, open discussion, and a forum for caretakers to ask questions related to mental health. All new parents/Learning Coaches are provided access to an online orientation. Numerous supplemental orientations and live online sessions are offered to help new families transition easily into the school; new and

2024-25 Opportunities for Parental Involvement

returning families may also engage in online sessions dedicated to a myriad of topics such as how to best foster growth mindsets, understanding gifted students, and more. To further engage parents and enhance school operations, a parent satisfaction survey conducted by an independent third party firm serves to gather parent feedback annually. Parents are encouraged and reminded that the Technical Support team can be contacted by phone or via a link in the school's Educational Management System for assistance with technical issues, complaints, and concerns.

2024-25 School Safety Plan

Because our charter school is a virtual school, school safety issues differ from a traditional school. Students do not work from a school site but some administrators and support staff do work from an office location from time to time. For students, school safety issues typically include, but are not limited to, Internet safety as well as policies on bullying and harassment. California

2024-25 School Safety Plan

Online Public Schools provides a closed communication system, which helps ensure online safety for students. For staff members, common school safety issues addressed with training include Internet safety, students in distress, student, parent or staff bullying and harassment, and other topics. Emergency plans and workplace safety policies are also provided for school staff members who work in a school office. We do host in person events including field trips, festivals, state testing and graduation ceremonies. We do have a comprehensive safety plan that was board approved on February 6, 2024. The plan includes all elements required by Ed Code, including but not limited to: child abuse reporting, disaster and criminal incident procedures, and, discipline and due process for students. The school also has a safety committee that meets at regular intervals. We also offer staff CPR training and active shooter training. Additional information about school safety is available upon request.

Professional Development

All teachers have approximately 20 days each school year for professional development and training. In addition, Professional Learning Communities actively meet throughout the school year during time set aside for this important professional development activity, which supports student learning through data analysis and professional collaboration.

Training/Professional Learning Elements - The following training and professional learning programs are provided to California Online Public Schools Monterey Bay teachers and staff:

1. LMS Orientation Courses

LMS Orientation Course: All teachers complete a self-guided orientation course. This course is delivered through the LMS online tutorials, sample lessons, and navigation tools. This course covers “the basics” staff need to know to effectively do their job. This includes effectively grading and providing meaningful feedback, monitoring progress, monitoring attendance, and effectively gauging school engagement. Upon successful completion of this course and its assessments, teachers are ready to begin. Teachers must complete this course with an overall score of 80% or higher.

2. California Online Public Schools Vector Trainings:

Staff are required to complete a series of training and assessments within the first 30 days of the school year or as deemed appropriate by Ed Code. These trainings include assessments that must meet a passing mark of 80% or better.

3. Curriculum Training and Professional Development:

Teachers receive training and professional development on their grade level appropriate adopted curriculum. These sessions are staggered throughout the school year and designed to help our teachers better serve their students and families in the online environment.

4. Mini Trainings:

Staff attend training that directly relates back to their current positions and job duties. These trains occur at a minimum monthly and are focussed on their specific job duties as it relates to our school goals and student and family service. These training sessions are recorded so staff can review them as necessary.

5. Additional Training and Professional Development:

Designated times throughout the school year, as deemed by the administration, staff are required to attend training that aligns

Professional Development

with the school year cycle. These trainings include but are not limited to topics such as attendance tracking, communication, State Testing and Interim Assessments, etc.

6. University Online Instruction Courses:

CaliforniaOnline Public Schools offers up to \$5,250 per year per teacher in tuition reimbursement to support continuing education. Some restrictions apply including enrollment in an accredited program or degree path as well as successful completion of the course(s).

7. Capturing Kids' Hearts:

Staff attend the initial training program designed for educators, primarily focusing on building positive relationships with students to create a more connected and supportive classroom environment, emphasizing social-emotional learning and relationship-driven classroom management techniques. Ongoing training and check-ins are completed on a regular basis with designated staff members.

8. Teacher Support During Implementation

California Online Public Schools teachers are all assigned supervisors. The supervisors are tasked with monitoring and supporting the teachers during their implementation of professional development activities. They will meet as often as twice a month to ensure implementation is on track.

This table displays the number of school days dedicated to staff development and continuous improvement.
